Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Yes: Claims	1-86
	No: Claims	
Inventive step (IS)	Yes: Claims	1-86
	No: Claims	
Industrial applicability (IA)	Yes: Claims	1-86

Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

see separate sheet

Reference is made to the following documents:

D1: GB-A-1 209 326 (CARTER WALLACE) 21 October 1970

D2: EP-A-1 384 477 (LABORATORIOS DEL DR. ESTEVE) 28 January 2004

D3: WO 88/05046 A2 (E.I. DU PONT DE NEMOURS) 14 July 1988

Re Item V.

Novelty

The compounds of the present application represent a novel selection from the compounds disclosed in D2. The compounds of D2 are useful against proliferative cell diseases.

The starting compound disclosed in example 17 of D3 is disclaimed in the present application.

Therefore the compounds according to the present application, their use and medicaments containing them are considered as novel.

Inventive step

D1 discloses pyrazole compounds which lower triglyceride levels in the blood plasma. In view of the various structural differences with the compounds of the present application, it was **not** obvious for the skilled person to arrive at the compounds of the present application starting from the teaching of D1.

Re Item VIII.

The vague and imprecise statement in the description on page 3 concerning **prodrugs**, implies that the subject-matter for which protection is sought may be different to that defined by the claims, thereby resulting in lack of clarity of the claims when used to interpret them.

Furthermore, the statement on page 46, lines 5-7 concerning the spirit of the invention is obviously unnecessary.
